**Title:** General Manager – Strategy and Growth  
**Phone:** +61 400 872 554  
**Email address:** rhys.jones@darwinport.com.au  
**Website:** darwinport.com.au

Darwin Port operates the Northern Territory's commercial wharf facilities at East Arm and the cruise ship terminal at Fort Hill Wharf. As the only port between Townsville and Fremantle with full multi-modal transport services, it plays a vital role in trade and logistics. A key hub for LNG exports and offshore oil and gas operations, Darwin Port also provide world-class pilotage and harbour control services while handling containers, bulk cargo, live exports and heavy lift oversized freight. Positioned for growth, Darwin Port is ready to service Australia's future needs and development of northern Australia and emerging markets.

**Title:** Board Director  
**Phone:** +61 456 789 814  
**Email address:** business@ntex.com.au  
**Website:** chambernt.com.au

Established in 1957 the Northern Territory Chamber of Commerce & Industry is the largest employer association in the Northern Territory having more than 1,100 members. We are an independent, not-for-profit and non-government body - our membership and our offices span the Territory. The NT Chamber of Commerce is governed by a Board of Directors, and in addition, has multiple industry-specific Councils, the Manufacturers Council, Maritime Industry Council and International Business Council. Members are represented across manufacturing industry and international business.

**Contact person:** David Slama  
**Title:** Director Northern Territory & South Australia  
**Website:** energyproducers.au

Australian Energy Producers (AEP) is the peak body of the explorers, developers and products of essential energy – oil, gas and lower-emission fuels. AEP has approximately 200 members Australia-wide, with its membership comprising 95% of Australia's oil and gas companies.

Australia's oil and gas industry is essential to our country's energy security and economic prosperity, providing Australians with reliable and affordable energy. Natural gas continues to power Australia's economy, with the manufacturing, mining, electricity and construction sectors all depending on reliable, affordable gas supply.

**Contact person:** Chris Langworthy  
**Title:** Lead Corporate Advisor NT  
**Email address:** chris.langworthy@inpex.com.au  
**Website:** inpex.com.au

At INPEX, our energy is helping to shape a brighter future. We are proudly supporting positive outcomes in Australian communities, through jobs, training and social and economic benefits. Our people are passionate about safe and sustainable energy solutions to achieve our net-zero 2050 goals.

As operator of Ichthys LNG, we support the energy security of Australia's regional allies: Japan and Taiwan. We are actively working to introduce carbon capture and storage (CCS) to Ichthys LNG by the late-2020s, 260 kilometres offshore Darwin, Australia.

Our Australian new energy business is supporting a more sustainable tomorrow through renewable energy initiatives, native revegetation, carbon farming and future biofuels interests.
